

**Amendments to the Specification:**

[0004] U.S. Pat. No. ~~5,621,942~~ 5,621,042 discloses an isocyanate modified fluoroolefin-vinyl ether copolymer resin. The fluoroolefin-vinyl ether copolymer resins do not exhibit elastic rebound at 100% elongation without deformation and would not be suitable for coating flexible elastomeric substrates like rubber according to the present invention.
